RELATIONSHIPS AND CULTURE IN THE WORK PLACE

Joanne VanOsdal, Special Services Director

This session will examine key concepts related to maintaining a positive work environment. Based on the ideas from Roland Barth, educator and author, the norms of personal and professional behaviors that are required to maintain supportive working relationships will be discussed. Small group discussions will be held.

TWITTER: THE WORLDWIDE PLN (PERSONAL LEARNING NETWORK)

Pat Toben, Music Specialist

This session will give the audience the chance to see first hand how Twitter can be used as a professional development tool/resource. Audience will be introduced to hashtags, chats, and how to “follow” leaders in the profession. Please bring your laptop and have tweetdeck installed.

21ST CENTURY THEMES AND TOOLS

Joanne Bohl, HS Social Studies

This session will use the social bookmarking site Portaportal to help organize websites for my classes to the 21st Century Themes.

BOOKS ALIVE!

Dianna Tyler, Hartford Elementary Principal; Curriculum Director

Learn how to take a children’s book from paper book form to coming alive on your computer. Please bring a favorite children’s book and your computer. We will work with imovie and scan/narrate the book and record your voice to narrate. This can be used in your classroom for the students to narrate and use expression!

Where Did I Put That?

Amy Hiedeman, Tech Integrationist

Time for some “house cleaning” on your computer? Come and get some assistance in organizing files, backing up files, organizing bookmarks, and cleaning out your email.

Differentiated Instruction

Amy Hiedeman, Differentiation Coach & Amber Eberhard, 4th grade teacher

This is a work session. Bring materials to map out a unit and plan for differentiation. We’ll touch on some basics for management and assessment.

Discovery Education

Amy Hiedemanm Tech Integrationist

Review and time to find supplemental videos to enhance your classroom instruction.

Switch

Jeff Danielsen, Superintendent

This session is a book talk/study on how to make changes stick.

West Central In-Service

Monday, January 17th

Vocabulary Instruction Using Keynote

Becky Wahl, 7th Grade LA Teacher

Learn how to optimize your vocabulary instruction through Keynote on the Mac.

Stop Motion Animation

Brenda Sosa, Art Educator

Incorporate 21st century skills in your classroom by teaching students how to plan and implement in a collaborative setting, brainstorm ideas, make a list of possible materials, organize ideas in a storyboard, create a story, record a story, and share a story with the world. This 21st century skills and technology lesson was created for an elementary visual arts classroom, but can be easily adjusted to fit any grade or subject.

Advanced Wikis

ESA Personnel

Explore further how to use your wiki for student instruction and/or enhance your website.

Basic Mac and Practice

Mark Hofer, HS Principal/Matt Alley, Humboldt Elementary Principal

Review Tutorials on basic Mac functions. Network with others on “how to” shortcuts.

Raising Cain, Protecting the Emotional Life of Boys

Guy Johnson

View a video on working with boys in schools and what we can do to help boys achieve to their potential. Discussion will follow video.

Differentiating Daily Math Assignments

Kristin Rhoades, 8th grade math teacher

Bring your math textbooks to practically differentiate lessons during this session.

Mac Tips and Tricks, Trevor Strobel

Demo Mac shortcuts, tips and tricks with Dropboxes, YouTube Downloader, iCal subscriptions, and ways to make your life easier on your MacBook. Will also show some cool things with QuickTime and show what Cmap Tools is all about. If time, will show how to convert audio and video files. Bring questions!

Basic Classroom Management

Jolene Keckler & Jennifer Gross

Jolene and Jennifer will share basic classroom management tools to help in any classroom.
